Something Rotten! is presented through special arrangement with Music Theatre International (MTI).

"There's nothing as amazing as a musical!"

Something Rotten! is, first and foremost, a love letter to musical theatre. This production celebrates everything wonderful about musical theatre, from its big and flashy kick lines and tap numbers to its heartfelt moments of love and reconciliation. The play is a pastiche in that while it is set in Renaissance England, its language and style is entirely modern.

The creators draw inspiration from a variety of influences, cramming in dozens of jokes and throwaways to classic Broadway musicals. The character of Shakespeare in this production is also unlike any other: inspired by rock stars such as Mick Jagger and Freddie Mercury, this version of "The Bard" is edgy, stylish, and oozes swagger.

Hanler and The Merchant of Venice, two of the most iconic plays of the time, have important roles in the plot, but Shakespeare has not written them yet. Rather, we see how he gets the inspiration (and the words) to eventually go on to write them, as events of the play set off a trial that will go on to inspire the famous court scene wherein Portia disguises herself as a lawyer to defend Antonio.

Though *Something Rotten!* is a light-hearted comedy, it also explores the nature of insecurity and envy between artists – regardless of if one is a Shakespeare or a Nick Bottom. This ugliness is a driving motivator for some of our main characters, but so is love for one's family and the desire to create something beautiful. This love of creation is central to Scotch n' Soda's values as an organization and is what resonates with each member of the production team.

Through the story, songs, and spectacle of *Something Rotten!*, we hope to bring to you the charm of Renaissance England, the camaraderie of the Bottom Brothers, and the charisma of William Shakespeare. Please join us in this celebration of music, dance, and theatre! We sincerely hope you enjoy the show and thank you for your support.
